PROTECT & MAINTAIN YOUR HOME

Residential Heating Comfort Care Plans

YOU'RE BETTER OFF WITH A BOTTINI COMFORT CARE PLAN

A Comfort Care plan for your heating unit is like Health Insurance for your body.

We've spent years reconstructing the programs that matter most to our customers. Our comfort care plans are the ideal example. With the combination of value and protection, our plans are designed to give you the most for your energy dollar.

Preventive Maintenance

With regular tune-ups on your heating system, you will reduce the chance of breakdowns and keep your system running at peak efficiency, which can cut your annual fuel bills by as much as 10%.

Saving \$\$\$

Along with the annual tune-up, you can also receive either a 15% discount on repairs or complete coverage on parts and labor; Whichever comfort care plan you choose, you will be saving money.

Dependable...

Our customers have been depending on our service since 1951. If you lose heat - at any time of the day or night - our experienced technicians are at your service.

The Money You Save With A Bottini Plan

Typical Repairs	With our 'Premium' Plan	With Our 'Value' Plan	Without A Comfort Care Plan
Blower Motor	FREE	15% Off	\$355.00
Circulator	FREE	15% Off	\$285.00
Ignition Transformer	FREE	15% Off	\$168.00

"A Bottini Service Technician came to my house to install a tank this week. He was the most professional man I ever met, great people skills. He did a great job. Tomas brings a lot of integrity to his job. I am a proud member of the Bottini family."

-Andy R., Chester, NY

Here are a few things to check if your heat should stop:

- Make sure the furnace **power switch** is set to "ON".
- Raise the **thermostat** setting to a level that is higher than the room's current temperature.
- Check for a tripped **circuit breaker** or a blown fuse.
- Check the amount of **fuel** in your tank.
- Press and hold the **reset** button on the burner for three seconds. **DO NOT PUSH IT AGAIN.**

FYI: You'll find an interactive troubleshooting tool at Bottinifuel.com/troubleshooting/heating.html

Energy Assistance Programs

Q: Why should I consider a Comfort Care plan?

A: To save money and for peace of mind! The comfort care plans we offer include your tune-up, fast response and savings on repairs.

Q: Are Comfort Care plans really worth the cost?

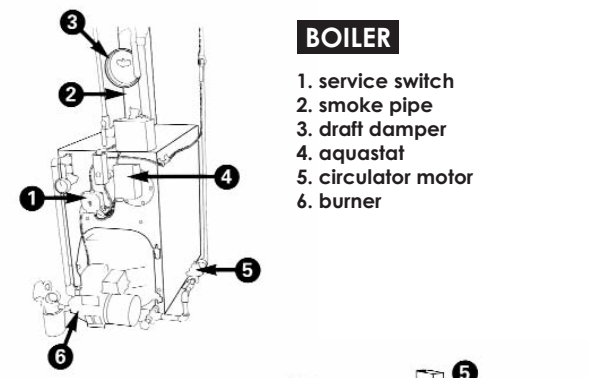

A: Absolutely! The cost of a comfort care plan is less than a daily cup of coffee. And for a few dollars more than the cost of a tune-up, you have a maintenance agreement that includes that tune-up plus so much more! We can also calculate this annual cost into a monthly budget with your oil.

Q: Why do I need to have a tune-up?

A: Statistics show that four out of five system breakdowns could have been prevented with a regular maintenance.

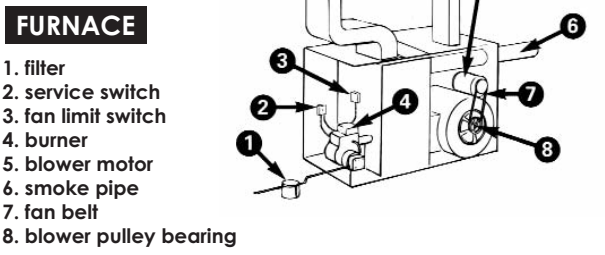

Q: What Comfort Care options do I have?

A: The insert enclosed in this brochure show the different plans that will help you save money. Any one of our staff will be happy to work with you on which plan could work for you.

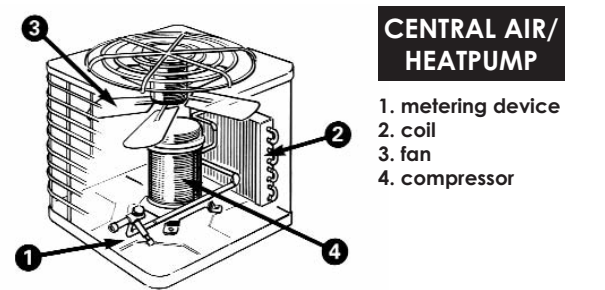

BOILER

1. service switch
2. smoke pipe
3. draft damper
